SANTA MARGHERITA

IMAGINATION BONDED 

SM MARBLE

SM MARBLE

SANTAMARGHERITA sceglie dalla natura le materie più pregiate e le lavora con tecnologie all'avanguardia, restituendo collezioni capaci di ricreare atmosfere e sensazioni peculiari della pietra naturale.

Le collezioni SANTAMARGHERITA offrono un'interpretazione contemporanea della bellezza senza tempo della pietra, adattandosi perfettamente alla personalizzazione di spazi residenziali e per la collettività. Prodotti in blocchi, da cui si ricavano le lastre, sono disponibili in formati standard o personalizzati sulla base delle dimensioni della lastra.

SANTAMARGHERITA mixes selected raw materials using cutting edge technology. Our collections offer the charm, elegance and glamour of natural stone.

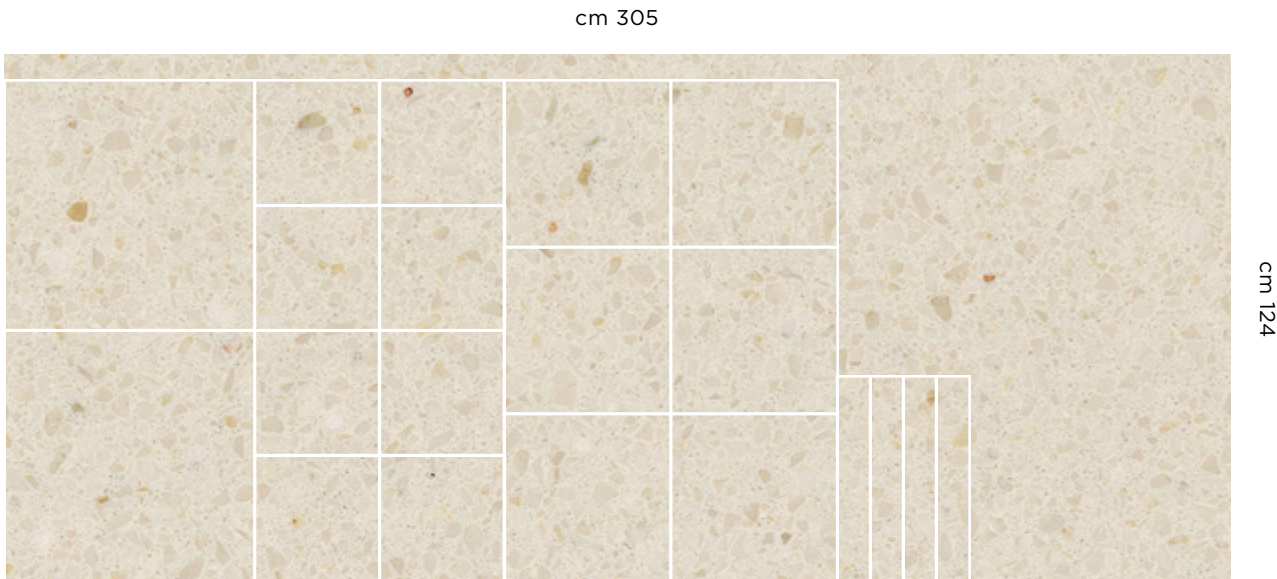

SANTAMARGHERITA collections offer a contemporary interpretation of the timeless look of stone, available in different color nuances and particle sizes. A perfect solution for both residential and commercial projects. The materials are manufactured in blocks, which are then cut into slabs. Standard and custom sizes based on slab's dimension are available.

Elevate caratteristiche tecniche - resistenza alla flessione, all'abrasione, agli acidi e durevolezza nel tempo - e una vasta ed eterogenea gamma di texture e colori rendono gli agglomerati SANTAMARGHERITA capaci di rispondere alle più diversificate esigenze di personalizzazione, sia per il residenziale di metratura ridotta che per i progetti su larga scala.

Tutte le collezioni possono essere fornite, oltre che in dimensioni e spessori standard, in qualunque formato personalizzato e modulabile sulla base della dimensione massima della lastra.

Outstanding technical characteristics - flexural strength, high resistance to chemicals and long lasting beauty - and a wide range of colors and textures: SANTAMARGHERITA surfaces fit every project, from the small residential application to large commercial flooring.

All collections are available in standard thicknesses and sizes. Customized size based on slab's dimension can be made to order.

SM UNISINK

SM UNISINK

I lavelli SM Sink si uniscono ai colori del quarzo Santamargherita in un elegante fusione di colore. Scegliete la linearità data dalla perfetta combinazione dei due materiali per donare classe ed eleganza alla vostra cucina.

Qualità UNISINK

- Resistente (a calore, impatti, graffi e sostanze chimiche)
- Impermeabile
- Facile da pulire

SM Sink and Santamargherita Quartz colours blend together to create an amazing countertop. Choose the perfect combination of the two materials for a classy and elegant kitchen.

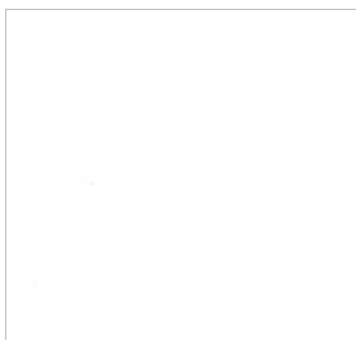

UNISINK quality:

- Resistance (to heat, stains, chemicals, scratches, impacts)
- No water absorption
- Easy to clean
